

Unless a political compromise is reached, the Brazilian warfare will now be waged for nearly two weeks between the Sao Paulo revolutionists and the federal troops, promises to being drawn out. This is said by information filtering past censor which is corroborated by statements of various voyagers arriving recently from Rio Janeiro. Santos, eleven Sao Paulo.

HOT WEATHER IS REDUCING TIME.

FOR WAISTLINE GOOD FOR BACK REDUCES HIP FOR ABDOMEN

FAY MARBE ILLUSTRATING HER FAVORITE EXERCISES FOR REDUCING AND KEEPING THE WANDERING WAISTLINE IN PLACE.

BY MARIAN HALE
NEA Service Writer

There's one thing to be said in favor of hot weather. It is better for reducing flesh than the more temperate climate we prefer for general living purposes.

"If you will keep up your exercises during July and August, you can achieve truly marvelous results," says Fay Marbe, motion picture actress.

"The thermometer will co-operate with you if you will let it. You will find it very easy to produce the perspiration that shows the flesh is melting, and you will not want so much rich food, which puts the pounds right back after you exercise them off," she explains.

Here are some of the exercises she suggests:

Restore Waistline.

"Place your left foot on a stool slightly lower than your hips. Bend the body forward until the head touches the knee, then as far back as possible, first with one foot on the chair, then with the other. This is excellent for bringing back the wandering waistline.

"This one is good for the back. Place your knees closely together and bend forward until your head touches the floor, extending the arms full length straight in front of the knees. Keep the arms fully extended and

straighten the body. Then bend back, resting the hands on the floor until the head touches the floor between the two hands.

"Don't do this one too often, she cautions, until you have accustomed your muscles to the strain.

Hands on Hips.

"This one will make hipless gowns a possibility in your life," she promises. "Place the hands on the hips, the feet about 15 inches apart. Bend straight to the side, slowly, as far as you can. Then straighten the body slowly and bend to the other side.

"In this one keep the knees quite straight throughout and bend as far as possible each time. The motion

should be slow and forceful, never jerky.

"To reduce the abdomen stand erect, feet together, arms stretched full length above your head. Bend forward slowly, keeping your arms extended in a straight line with your body. When you have bent as far forward as possible, bring the arms forward toward the floor.

"At first you probably will be unable to reach the floor but as you become more supple you will be able to rest the palms fully on the floor.

"Just one word of warning," she concludes. "Don't overdo at first and become discouraged later. If you will do each one 10 times a day consistently, you will get results."

DEMOCRATS BUILDING MACHINE FOR FIRST TIME SINCE 1912

BY ROBERT T. SMALL
(Copyright, 1924, by The Bee)

NEW YORK, July 18.—The Democrats have undertaken the building of a national political machine for the first time since 1912. With the exception of the control exercised over it by Woodrow Wilson, the party has had no organization for the past 12 years. Not only there has been a national committee, but it has seldom functioned. In the campaign of four years ago it was virtually of no aid whatever to the presidential candidate, James M. Cox, at some point lacking in financial and all other resources. Governor Cox fought the battle of 1920 practically alone. Wherever he went—and he traversed the country from one end to the other—the members of his party were ascribed to the complete lack of direction in Democratic affairs.

This year it is claimed all this is going to be changed. The breakdown in 1920 was ascribed largely to the lack of funds. The Democrats were penniless at the start of the campaign and in debt at the finish. The breakdown also was attributed in some quarters to the fact that the Democrats had for eight years placed their destiny completely in the hands of one man—President Wilson. Mr. Wilson never was much of a believer in party organizations as such and he did little or nothing to keep the national Democratic machine intact. Democrats generally were willing to accept Mr. Wilson as their dictator. Then came his collapse and for the campaign of four years ago organization was all but completely lacking. Mr. Wilson did comparatively little for wider even the state organization of his party. Notably he neglected Tammany Hall here in New York City and also ignored Charles Murphy in matters of state patronage. One reason for the empty field of the late leader of Tammany Hall against William Gibbs McAdoo was the latter's activity in saying where the federal offices in New York state should go. Tammany's feeling was so bitter in the matter that Mr. McAdoo realized he could never let New York's choice for the Democratic nomination and he moved away to California where the political atmosphere was not only friendly, but wildly enthusiastic. The friends of Mr. Murphy, however, still formed an anti-McAdoo bloc and declared more than once at the recent convention that the late president's son-in-law should not pass.

The task of building before the Democrats is an enormous one and that is why John W. Davis, the candidate, is thinking of advising a change in the Democratic form of organization. They realize the burden will be too heavy for one man. There is too much ground to cover. Therefore, in addition to the national chairman, yet to be chosen, there will be a sort of board of directors in touch with headquarters with regional directors scattered throughout the country.

The Republicans adopted this form of organization in 1920 but are generally discarding it as unnecessary this year. Under the regional plan one man has general supervision of the campaign in five or six adjacent states. Some of the Republican "best minds" were not satisfied with the scheme and felt that better results were to be obtained by leaving every state organization supreme in its own territory and subject only to the general "advice and consent" of the national committee and the candidate.

There is so much work to be done by the Democrats, however, that it is regional assistance not only is needed, but will be welcomed by the sagging state machines.

Mr. Davis is going to call upon the "very best minds" in the party in each state. He has been promised co-operation all along the line. Prominent men like Governor Cox in Ohio are to be asked to lend a hand at the wheel and under their influence it is believed that the state organizations can be revived for national duty.

Democrats are to be used everywhere to put forth their best men for state office this year so that the national ticket may have the benefit of every favorable local influence.

In this connection great pressure is being brought to bear upon Al Smith to run for a third party term as governor of New York. Mr. Smith is reluctant to do so. He feels he has given many of his best years to the state in various capacities and that it is time for him to resume his own business affairs so as to lay up something against the proverbial rainy day. The Democrats are talking of "drafting" him, however, for no other man stands out for the place and certainly no other man could be of such enormous help to the national ticket.

The Democrats will endeavor to establish a working basis for the primary system will permit in selecting candidates for congress, both House and Senate. They want to get their full strength in the field. Mr. Davis is an organizer of no mean ability, however, and his energy and directing force will be behind all of the aggressive campaign plans.

In New York

NEW YORK, July 18.—Dopey Dan is in decay.

From the highest position of affluence as a gang leader in New York's underworld, he has fallen. He is in jail charged with petit larceny. Today he is scoffed at by men who cowed at his approach in other days.

Dopey Dan never worked with a gun. He was the master of the most unusual criminal pursuit of which I ever have heard.

He used to break fingers. In the days of furious garment-workers, Dopey Dan was the reigning terror.

It was his highly paid task to break the "needle finger"—the index finger on the right hand, of all garment workers who would not strike or who were opposed by the clique which hired Dopey Dan, the Master Finger Breaker.

He worked long and late during his busy season, amassing high sums of money.

Dopey Dan was a finger hunter, comparable only to the head hunters of Borneo.

Of course, when Dan broke the needle finger of a garment worker, the tailor had to quit work and was off duty with the broken member for many a week. Soon Dan became a threat to all garment workers.

There were other members of the finger-breaking brigade, but Dan was the leader. Some of the gangsters, it is said, cut off the needle finger of many tradesmen. But Dan, the story goes, always was honorable—he only broke the fingers.

Dan worked himself out of a job. The garment workers wouldn't obey his orders. He had no more fingers to break.

So he degenerated to petty thievery.

Russell Hayward tried to drown himself. He jumped into the bay at the Battery.

But his wooden leg kept him afloat, until rescuers arrived.

"Wagon Hill," once the famous Astor estate, is now the last resting place for broken-down wagons and automobiles.

DAILY PUZZLE

I WAS ABLE, HERE I SAW ELBA

The above words have been attributed to Napoleon Bonaparte, who is supposed to have uttered them after his exile to the Island of Elba. If the words are re-arranged, without changing the meaning of the sentence, they will read the same way backward as well as forward. Can you form the correct sentence?

Yesterday's answer:

The farmer found the mid-point of each side of his field and connected the mid-points with straight fences. The center plot of land, which he reserved, contains one-half the area of the field, and its opposite sides are parallel.

Relief in One Minute

CORNS

Now—get relief in one minute from corns, callouses and bunions with Dr. Scholl's Zino-pads. They remove the cause—friction and pressure. Thin, easy to apply, antiseptic, healing. Three sizes. Nothing so quick and sure. At your druggist or shoe dealer.

Dr. Scholl's Zino-pads

"Put one on—the pain is gone"

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red-blood-cells—and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes veins-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give your self what you have been working for, for years.

S.S.S. is sold in all good drug stores in two sizes. The larger size is more economical.

POLICE QUELL NEAR RIOT OVER RELIGION

(By The Associated Press.)

NEW YORK, July 17.—Demonstrations of racial and religious antagonism which for two days had undered the Jewish and Italian sections of the Ghetto, were subdued today as police escorted the body of Jennie Lebowitz, wife of Dominick Scioia, to the Church of the Most Precious Blood and thence to Calvary cemetery.

Authority was compelled the peaceful fulfillment of Jennie's dying wish. She who had forsaken the Jewish religion for love, who had embraced the faith of her Italian husband and who during the months of her illness had been an outcast, "already dead" to her parents and her sect, was receiving a Christian burial.

Born and reared in the Ghetto, Jennie and Dominick had been playmates since he was eleven and she ten. Two years ago they married. Jennie's parents told their friends "she's dead." And Dominick's parents told their friends "we have no son Dominick." Last June, when she learned death awaited her, Jennie renounced the religion of her fathers and joined the church of her husband. She died Tuesday night. The ever alert eyes of the Ghetto saw a priest enter the Scioia home and the news spread like prairie fire. Soon the adjacent streets were filled with jostling, frenzied thousands.

All yesterday and last night they swarmed the streets of the Ghetto. Police reserves were called and violence was averted.

Throgs lined the streets today by thousands. They gestured and muttered, but there was no violence.

Mounted police pranced at the head of a little cortege. Officers of the bomb squad brought up the rear. Alongside, crowding the murmuring throngs to the curb, strode patrolmen and detectives.

Police were taking no chances. Instead of taking the body from the bride's home to the church next door, Our Lady of Sorrows, the funeral directors were ordered at the last moment to proceed to the Church of the Precious Blood, where secret arrangements had been made for the service.

Too hot to worry about politics. We haven't even learned the names of all the new soft drinks yet.

The most important thing about a political machine is the cluth.

MANY THRILLS IN "FLOWING GOLD."

Picturization of Rex Beach Novel Filled With Hair-Raising Adventure.

Anna Q. Nilsson and Milton Sills in "Flowing Gold"

If there is one thing of which the great American public cannot get enough it is stories of adventure and romance with a pair of lovers fighting their way through many obstacles and dangers to the ultimate "and they lived happily ever after." From the obscure clerk to the university president all relish tales that stir our emotions and make our blood run faster as we unconsciously take upon us the identity of the characters entertaining us.

Such stories have had the greatest success of all when transferred to the screen, for that is the greatest medium for visualizing the action conceived by the author. The figments of imagination take on life and become real persons to us.

That is one of the reasons why "Flowing Gold," a screen version of Rex Beach's latest novel now at the Broadway is meeting with such huge success in the motion picture theatres in the country. The First National picture, is an example of how the spell of a great story can be intensified on the screen.

All of this great author's novels have been noted for their thrilling situations and episodes, but none more so than "Flowing Gold." Beach has chosen the oil fields as the locale of this tale of love and adventure, and into it he has injected a continuous series of thrills that will increase his following tremendously.—adv.

HUNT'S DAILY LETTER

By HARRY B. HUNT

WASHINGTON, July 15.—Washington, I remember when brigade which seeks to compare each new political circumstance with some previous similar situation, preferably to take advantage of the newest development, finds itself stumped in seeking an opinion when more "fuss and fury" was made over the presentation of the name of a candidate for president than that which attended Franklin Roosevelt's speech at New York, nominating Gov. Al Smith.

After much fussing of heads and comparing of recollections, it is agreed that the demonstration most nearly approaching those staged for McAdoo and Smith, at the recent Democratic battle royal, was that accorded the presentation of Theodore Roosevelt's name in 1904.

Next to that, and running third to the recent records, was the hullabaloo accompanying Bryan's second nomination at Kansas City in 1900, when the issue was imperialism.

The custom of "demonstrations" at political conventions, partly sage, partly agree, originated back in 1892. It was the Republicans who started it, although the Democrats have just carried it to the ultimate of frenzied absurdity.

At the Minneapolis convention of the G. O. P. in that year, a delegate from Colorado, in nominating James G. Blaine, by the sheer moving force of his oratory, touched off a demonstration that lasted for some 15 minutes. It was an unpremeditated, unorganized, spontaneous outburst of enthusiasm without parallel in political history.

But even this first "demonstration" didn't nominate the man whom it honored. Blaine got the demonstration, Benjamin Harrison got the nomination.

The Bryan demonstration of 1900 gave evidence of attempts to improve on nature. Simple enthusiasm, certain, certain leaders believed, was not enough. The crowd had to be by artificial expedients. Which they did.

For the first 10 minutes the applause and jubilation was sincere and honest enough. After that it became a manufactured product, which was continued through another 15 minutes. This record of 25 minutes was acclaimed as proving the country's fervent opposition to the "imperialistic" program of the Republicans.

Again, the Democrats had the big demonstration; the Republicans carried the election.

The demonstration bug, however, inoculated the G. O. P. proceedings at Chicago in 1904 and the Roosevelt backers set out definitely to outdo by at least five minutes the Democratic Cambodge of 1900. It was put through on schedule, and maintained for exactly the desired 30 minutes. But it was palpably forced throughout at least half that time. Even the pug-nacious personality of T. R. was unequal to the task of maintaining for that period a spontaneous crescendo of cheers and applause.

Political analysis, who have studied Democratic and Republican gatherings, say the Democrats are the more emotional and more easily stirred to genuine demonstrations. However, even the Democrats will admit that the record-breaking noise-fests which attended the McAdoo-Smith contest at New York—one hour for McAdoo, an hour and a quarter for Smith—are artificially stimulated. They mark the decline of the "demonstration" as an effective factor in presidential nominations.

June Employment In Certain Lines

Employment in Manufacturing Industries decreased 3.3 per cent. in June, payroll totals decreased 6.7 per cent. and per capita earnings decreased 2 per cent. These unweighted preliminary figures, presented by the United States Department of Labor through the Bureau of Labor Statistics, are based on reports from 8,627 establishments in 52 industries covering 2,524,557 employees whose total earnings in one week in June were \$53,892,513. The same establishments in May reported 2,624,141 employees and total payroll of \$58,466,342.

The greatest decrease both in employment and in payroll totals is shown in the East North Central Geographic Division as was the case in May. The decreases in June were 1.7 per cent. in employment and 10.6 per cent. in payroll totals. The New England Division lost 2.9 per cent. of its employees, and earnings decreased 6.7 per cent. in the Middle Atlantic Division employment decreased 2.3 per cent., and payroll totals 4.7 per cent. in the West North Central Division employment decreased 1.8 per cent., and payroll totals 1.6 per cent. in the South Atlantic Division employment decreased 2.2 per cent., and payroll totals 5.1 per cent. in the East South Central Division employment decreased 2.5 per cent., and payroll totals 5.2 per cent. in the West South Central Division employment decreased 3.5 per cent., and payroll totals 2.8 per cent. and in the Pacific Division employment decreased 1.9 per cent., and payroll totals decreased 1.1 per cent. As in May, the Mountain Division fared both in employment and earnings.

Comparing June and May reports from identical establishments in June in 10 of the 52 industries and decreases in payroll total in 13 industries.

All of the six industries in the Food group show gains in June, both in employment and in earnings, the average increases for the group being 1.7 per cent. in employment, and 2.4 per cent. in earnings. Confectionery gained over 4 per cent. in both items, and Ice Cream approximately 2 per cent. and 4 per cent. respectively, in the two items. Nine of the 10 Textile industries show decreased employment and earnings in June, the Men's Clothing industry being the exception, owing to its seasonal activity. This industry gained 8.5 per cent. in employment and 14.9 per cent. in payroll totals. The decrease in employment in the combined Textile group of industries was 2.7 per cent., and the decrease in payroll totals was 5.1 per cent. Six of the 7 Iron and Steel group of industries show increased employment in June, the structural ironwork industry being the one exception, this also being the result of seasonal activity. The Iron and Steel industry alone dropped 1 per cent. of its employees and paid 1 per cent. less in wages, while the combined 7 industries dropped 4.6 per cent. of their employees and paid 4.5 per cent. less in wages. In the remaining 9 groups there were only increases in employment in June, and only 5 increases in earnings. The Vehicles group of industries and Stamped Ware both decreased 7.2 per

MOST TELEPHONED GIRL IN WORLD

You've heard of the most photographed girl in the world. Well, here's the "telephoto girl"—the most telephoned face in the world. It was this beauty that the research laboratories of the American Telephone and Telegraph Company selected for experiments on ways of retaining clarity and loveliness in reproduction and transmission of telephoned pictures. She adorns the booklet of instructions just issued to demonstrate methods of making telephone pictures.

SEARCH FOR HARRELL WITHOUT RESULTS

UNION, S. C., July 17.—Officers returned here late tonight after a fruitless search for Frank Harrell, alleged accomplice of Mortimer N. King in the killing of Major Samuel H. McLeary July 2, whose body was found today near Cheraw, S. C., where it had been placed by the slayers.

Local authorities states, however, that they have several clues as to Harrell's whereabouts and search will be continued.

Comparing June, 1924, with June, 1923, in 3,982 establishments in the 52 industries there was a decrease in 1924 of 12.9 per cent. in employment and a decrease of 16.8 per cent. in payroll totals. Forty-seven of the 52 industries show decreased employment in the year's time, 25 of the decreases being over 10 per cent. Both employment and payroll totals decreases were especially large in the Textile, iron and steel, leather, chemical, and vehicle industries.

An average of 83 per cent. of full time and an average of 76 per cent. of full capacity were operated by the establishments reporting as in their operating schedules in June. In other words 76 per cent. of a full normal number of employees were working 83 per cent. of full time. This is a drop of 9 per cent. in full time operation and of 1 per cent. in full-capacity operation as compared with May.

Wage-rate increases were reported by 23 establishments in June, while wage-rate decreases were reported by 102 establishments. The increases were not significant, but one-half the decreases were in the lumber group of industries, and one-quarter were in the Textile industries.

Reports of the Interstate Commerce Commission show an increase on April 15, 1924, in all employees on Class 1 Railroads, excluding executives and officials, of 1.5 per cent., as compared with March 15, 1924, and a decrease of 3.1 per cent., as compared with April 15, 1923. There was a decrease in the monthly compensation in April 15, 1924, of 1.9 per cent., as compared with March, 1924, and a decrease of 3.8 per cent., as compared with April, 1923.

DAVIS CLUB AT RICHMOND

(By The Associated Press.) RICHMOND, Va., July 17.—"Dig for Davis" is the accepted slogan of the local John W. Davis for president club, said to be the first organization of its kind in support of the Democratic presidential nominee to be organized in the south. The club now has over a hundred members, which number continues to grow daily. Daniel C. O'Flaherty, organizer of the club is its secretary.

ADVERTISING CONFERENCE ENDS; HOUSTON NEXT

(By The Associated Press.) LONDON, July 17.—The international advertising conference ended its 1924 convention this afternoon, confining Houston, Texas as the place for the 1925 convention, and the election of Lou E. Holland as president, and Jess H. Newell as secretary-treasurer for the next year.

Carrying out the keynote of this year's convention, a resolution was adopted calling upon all nations and societies to pledge themselves to take all efforts towards an exchange of ideas for international peace and to adopt measures to safeguard against the recurrence of war. This resolution was adopted unanimously, delegates from every nation represented ascending the platform and signing the text.

The convention approved another resolution expressing thanks to the prince of Wales and others who took part in the convention and those who arranged for its success.

GEORGIANS ON TOUR

(By The Associated Press.) ATLANTA, Ga., July 17.—A legislative committee of twenty, accompanied by a group of highway officials and good roads advocates, left here today for a three-day automobile tour of North and South Carolina to study the maintenance and construction systems followed by highway authorities of these states with a view of adopting the best features in a program for the development of highways in Georgia. About a dozen automobiles made up the caravan.

The highway boards of North and South Carolina have agreed to send representatives to meet the party and explain the various types of road construction as well as the maintenance system employed by these states.

THE ECONOMY BAKING POWDER CALUMET

Calumet possesses the farthest-reaching baking powder economy. It is the *most* economical leavening agent. It saves in *more* ways—and makes *more* important savings than many other baking powders.

You save when you buy it. The price is moderate—it leaves you money over the cost of high-priced brands for purchase of other articles. Costs but little more than cheap powders—far more *valuable* in quality.

You save when you use it. Possesses more than the ordinary raising force—you use only *half* as much as is ordinarily required.

You save materials it is used with. Calumet never fails with any kind of recipe or with any kind of flour—*always* produces perfectly raised, delicious bakings.

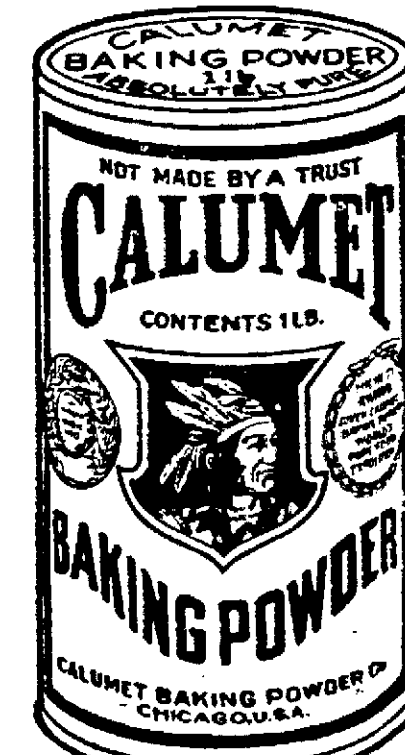

You'll notice a great difference when you use Calumet. It produces light, sweet, wholesome, flaky bakings. You'll notice with some of the cheaper brands the bakings are soggy, heavy, dark in color and sometimes have a bitter taste.

Used by leading chefs and domestic scientists, and by more housewives than any other brand.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

EVERY INGREDIENT USED OFFICIALLY APPROVED BY U. S. FOOD AUTHORITIES

Sales 2 1/2 times as much as that of any other brand

Here's a Thrill For Inlanders

Vacation time means yachting time to scores of boat-lovers. And a ride in a craft like the one shown above is a real thrill—especially for inlanders. International yacht races in America and England have done much to further interest in the sport in recent years.

MERCHANTS OF ALTA VISTA GIVE HOLIDAY

ALTAVISTA, Va., July 17.—In line with other merchants in other towns the merchants in Altavista gave holiday for half day last Thursday. This will continue through the months of July and August. The holiday is granted in midweek owing to the fact that they cannot lay out on Saturday.

Mrs. W. S. Agnes wife of the sheriff is reported to be critically ill. She is at the home of her son, Holt. She is entirely paralyzed in her right side. All of her children have been called to her bedside.

Altavista won the opening game of the last half of the Tri-County League here last Saturday when she defeated Halifax by the score of 4-1.

Last Monday Mr. Fred Lane purchased the agency of the Standard Oil Co. from Mr. G. D. Smith.

Mr. C. M. Davis spent Sunday in the Hill City.

Mrs. W. S. Corbin were visitors in Lynchburg Tuesday.

Bob to Mr. and Mrs. Barnett of near Petros last Saturday a girl.

Mrs. Hollie and Miss Alice Ewers are visiting the former's brother at Blue Jay, Va.

Miss Sophie Callahan spent the week-end with Mrs. Cresday at Lynch Station.

Mr. and Mrs. Reeves Dowdy spent Sunday with the latter's mother at Lawyers.

Mrs. Joseph Tyne left Sunday for a visit of several weeks to her daughters, Misses Rowe and Mary Lizzie Tyne.

Mr. John Henry Hall of Chatham was a visitor in town Tuesday.

Mrs. Luby and daughter Gladys left Tuesday for Gretna, where they will visit relatives.

Mrs. C. T. Burnette returned Monday from Exeter, where she and her daughter, Virginia, have been for the last week. Virginia will remain another week.

Miss Conmena Mattox of Leesville, Va., was a visitor in town Monday.

NEED OF WATER AT TOURIST CAMP IS BROUGHT OUT.

Fred B. Richard, a postal clerk from Newark, Ohio, who has been touring the southern states and is now on the return trip home, having read the press notices with regard to the tourist camp at North Danville, decided to give it a tryout.

Mr. Richard states that he was unable to secure any water there, and that there is also a lack of other accommodations necessary to the comfort and convenience of camping tourists. In this connection it is understood that the City Council authorized this week at their last meeting, and that a supply of water and such other equipment as is necessary will be added in the immediate future.

SINGING AT LAUREL GROVE.

A male quartet will sing at the morning services on Sunday at the Laurel Grove Baptist church, it was announced yesterday. The quartet will be composed of singers from Danville, it was said.

BIRTH ANNOUNCEMENT.

Before yesterday morning, to Mr. and Mrs. W. C. Baynes, 322 Clay street, a daughter, Eric Cavell.

Lions Hold Notable Meeting at Kentuck

Danville Lions last night invaded the country and devoured chicken sandwiches, ham, pickles, peas and all manner of fresh fruit, which had been bountifully prepared by the Women's Missionary Society of Kentuck Baptist church. The Lions had as their guests four farmers from the Kentuck neighborhood, and after partaking of the bounty prepared by the ladies, the Lions and their guests went into the auditorium and a regular Lions' program was put on.

Gorge Temple showed them the way he collects money at his church, two strong-armed men being given a bucket, and George marched down the aisles behind them with a galling gun, seeing to it that all contributed. Being caught robbing the bucket, he professed that he was getting a nickel out to give to one of the members who is soon to be married, inferring that he would need it. The remainder of the collection was turned over to the Woman's Missionary Society, as a special offering in excess of the regular plate fee.

Lion H. E. Spensard was called on for a talk and spoke for about ten minutes on "Town and Country," dwelling on the mutual benefits between the citizens of the city and country and telling of some happy experiences on the farm before he came to the city to dwell.

Music was furnished by the Danville music-makers, Messrs. Browder, Hylton, Enright, Geoghegan, Carter and Westbrook.

Group singing also proved a prominent feature of the program.

The attendance prize given by Willard Dodson was drawn by J. T. Walton, of Kentuck. A prize was offered for the person whose birthday fell nearest to July 17th and this developed a tie between former Del-

gate B. S. Warren and Cabell King, one being the 15th and the other the 18th. On a draw, Mr. King was awarded the prize, a handsome billfold, presented by Crispin Dickerson of the Jefferson Standard Life Insurance Co.

Another prize was offered for the farmer having the most children, and this again proved a draw. Messrs. J. W. Compton and J. W. Collier leading the list with ten each. Herb Hoffman was giving the prize and told that it would go to the gentleman with the most boys. Mr. Collier, having nine sons and one daughter to four sons and six daughters of Mr. Compton, was awarded the prize.

At the close of the meeting Rev. T. E. Peters, the pastor of the Kentuck church told the Lions he had enjoyed their being out and wanted to assure them that he had learned two things—how to take a collection and how to play.

Joe Gresham, another preacher, was called upon to tell how to take collections, and then on behalf of the Lions' Club, First Vice President Dick Moss, extended the thanks of the Lions to the ladies for preparing such an excellent supper for the Lions and their guests.

Hon. B. S. Warren responded with a short talk of thanks to the Lions for the pleasure given the invited farmer guests. A good time with lots of eats and plenty of fun for every one was the consensus of opinion as the party broke up.

The Kentuck Women's Missionary Society served the supper, and the president, Mrs. T. E. Peters, was assisted in serving by the following ladies: Mesdames Fred Burton, Jim Collins, E. W. Collier, Jamie Collins, E. S. Lester, R. S. Bennett, H. C. Marshall, M. C. Barker, M. C. Baker, Merville Slayton, Jim Slayton, Sam Miles, Sam Warren, Ed Lewis, E. S. Bennett, R. S. Bennett, N. P. Myers, T. A. Dawson, J. W. Compton, and Miss Pattie Bradley.

The following gentlemen for the Kentuck neighborhood enjoyed the hospitality of the Lions: Messrs. J. Burton, E. S. Lester, B. S. War-

ren, J. T. Slayton, J. H. Warren, John Collier, E. W. Collier, R. S. Bennett, E. S. Bennett, J. E. Bennett, Sam Gardner, T. A. Dawson, C. E. Gosney, H. C. Hodnett, Irvin Collier, L. B. Bennett, Willie Evans, W. L. Pollock, Roy Smith, J. L. Gosney, Z. J. Richardson, Lee B. Gosney, Chas. Brown, Augustus Wiley, Henry Booth, M. C. Barker, Johnson King, Ira Marshall, Henry Shelton, J. T. Walton, Tom Booth, Levi Hall, G. Brightwell, Sam Miles, and Rev. T. E. Peters.

The Luncheon Committee for August was announced with D. B. Owens as chairman, and John W. Nunn, W. B. Cousins and Willie Norton. A special feature of the next meeting will be a debate between Roy Payne and Willard Dodson on the subject, Cadillac vs. Ford.

In the absence of the president, Vice President Dick Moss presided, and the program was put on by Tom Fox and his assistants.

The Kentuck Baptist church is situated a short way from the main Danville-to-Richmond highway, in a nicely shaded spot, a short distance from the church is the new brick Dan River District high school, which takes the students graduating from the four junior high schools of the Dan River District, located at Ringgold, Blair's, Keeling's, and Laurel Grove. It has been referred to in many meetings of school authorities as one of the best central high schools in the state system, and is serving the youth of its community. This new and modern school house is built of brick, has 10 rooms, steam heat, sanitary closets running water and electric lights, and the people of Dan River District are just proud of it.

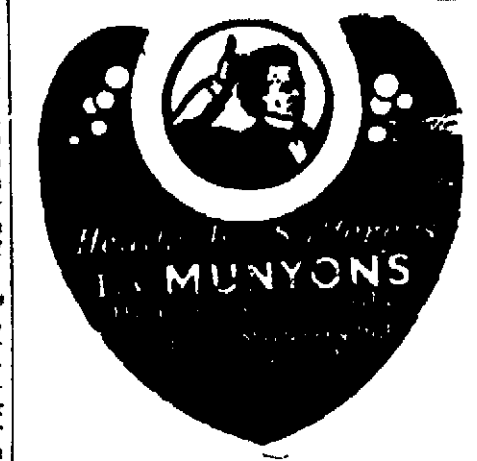

An interesting feature in connection with the school is that for 2-1-2 years the students were housed in the Kentuck Baptist church Sunday school rooms, and ten members of the student body were graduated with full college entrance requirements before the completion of the present commodious school building.

WALTER SMART ARRESTED AGAIN ON LIQUOR CHARGE

Walter Smart, well known to many as a shoe-shiner in Danville barber shops and also having a police record, is in the toils again, with the gloomy prospect in the event of conviction, of having to go to the penitentiary. He was arrested last night at his home in what used to be known as Bank alley on a charge of violating the State liquor laws. The arrest was made shortly before midnight by Sergeant H. T. Haraway, Patrolmen W. C. Talley and O. T. Cook, who, acting on a strong suspicion that Walter "had the goods," secured a search warrant and made a close inspection of his premises. The search resulted in the discovery and seizure of an exhibit against him, of three gallons and three quarts of spirits, frumment, an unusually large supply for these days of drastic statutes against the handling or possession of liquor.

In a trunk in the room the officers found three gallons and two quarts, while another quart was located under the bed. Besides this stock of contraband fluid, the officers also inspected the contents of a laundry bag and found in it half a dozen rubber hot-water bags, which emitted an

odor indicating that they had recently been used as receptacles for something else than hot water. The negro was placed under arrest to await a hearing. Smart was recently arrested and convicted of having liquor in his possession, and that was his second offense. Last night's arrest, in event of conviction, would mean his third offense, which would carry with it a term at the big white structure on Oregon Hill, Richmond. He made no effort last night to secure bond.

Now—Cooler Breakfasts

Tomorrow's breakfast prepared with tonight's dinner—a QUICK QUAKER delight

Try this new recipe

HERE is the richest, most deliciously cooling of hot weather breakfasts. Made of oats, it's supremely nourishing and invigorating, too.

As you prepare dinner tonight, cook your regular breakfast quantity of QUICK QUAKER (the new Quaker Oats that cooks in three to five minutes).

When done, pour into a pudding mould and let cool. Then place in the refrigerator over night. Cut in medium thick slices and serve at breakfast with fresh or cooked fruits or berries and sugar—float with rich milk or cream.

The combination is delightful. A world noted chef discovered this new way. Just for the joy of it, try it.

Standard full size and weight packages—medium: 1 1/4 pounds; Large: 3 pounds, 7 oz.

Madeira Pillow Cases
1.00 Each
H.A. 10 embroidered pillow cases of fine quality satinet, come in basket and other designs. These will add a touch of luxury to your linen closet.

FURTHER GAS REDUCTIONS

CHICAGO, July 17.—The Standard Oil Company of Indiana today announced a reduction of one cent a gallon in the price of gasoline for its entire territory, effective tomorrow. The company said the action was made possible by a reduction in the price of crude oil recently made by the company furnishing crude petroleum.

The dawn of a new era is frequently obscured by clouds of pessimism.

THE NUT CRACKER
BY JOE WILLIAMS

Carpenter promises to retire from the ring if Tunney whips him. And Tunney ought to if he doesn't.

Mr. Mack can truthfully assert that none of the American League managers ever debate the fair name of baseball by betting on the Athletics.

Miller Huggins will retire from baseball in 1925. So far as the seven other American League managers are concerned his retirement will be just about five years too late.

America has won the Olympiad so many straight times that the other nations are beginning to think something is crooked about it.

Ducky Holmes stopped another fist with his jaw in Washington the other day. It's clear they don't call him duck on account of his ducking ability.

Belgium's champion wrestler is an aviator. And of course he's a star at the flying fall.

An effort to oust the Cardinals from the St. Louis ball park failed. The fans might have been more interested had the effort had been designed to oust them from the state.

Japan was last with one point in

NATIONAL

HAINES PITCHES FIRST CARD NO HIT GAME IN 46 YEARS

(By The Associated Press.)

ST. LOUIS, July 17.—Pitching a no hit game, the first for this season, Jesse Haines of the St. Louis Cardinals shut out the Boston Braves today, 5 to 0, before a crowd of 15,000 drawn by a tuberculosis society benefit. This was the first time a Cardinal moundman had pitched a no-hit game since 1876, and it was believed to have been the first in the major leagues this season. Haines fanned five men and walked three. Two Braves died on first base while another expired on second, reaching there when two passes were issued in the sixth inning. The Cardinal pitcher received excellent support.

Score: St. Louis 5, Boston 0. R. H. E. St. Louis 0 0 0 0 0 0—5 12 0. Boston 0 0 0 0 0 0—0 2 1. McMamara, John Cooney and O'Neill; Haines and Gonzales.

CHICAGO CUBS ENDS LOSING STREAK BY HEATHCOTE'S STEAL

(By The Associated Press.)

CHICAGO, July 17.—Cliff Heathcote's steal of home in the ninth inning today put an end to Chicago's losing streak of six consecutive games, the locals winning from Philadelphia 3 to 2.

Score: Chicago 3, Philadelphia 2. R. H. E. Chicago 1 0 0 0 0 0—3 11 0. Philadelphia 0 0 0 0 0 0—2 7 1. Huhbell and Henline; Keen and Hartnett.

TRAYNOR'S HOMER DECIDES PIRATE-GIANT BATTLE

(By The Associated Press.)

PITTSBURGH, July 17.—A home run in the 13th inning by Traynor gave Pittsburgh a four to three victory over New York today. The game was a pitcher's duel between McQuillan and Morrison Cuyler again started at the bat, with a single, a double and a triple. His hitting drove in two runs.

Score: Pittsburgh 4, New York 3. R. H. E. Pittsburgh 0 0 0 0 0 0—4 13 0. New York 0 0 0 0 0 0—3 9 1. McQuillan and Snyder; Morrison and Smith.

SLUGGING MATCH BETWEEN REDS AND DODGERS.

(By The Associated Press.)

CINCINNATI, July 17.—Cincinnati won a slugfest match from Brooklyn today 10 to 8. Roush had two triples and two singles in five times scoring two himself. Duncan got a home run to the right field corner inside the grounds in the first inning.

Score: Cincinnati 10, Brooklyn 8. R. H. E. Cincinnati 3 0 2 0 0 0—10 13 0. Brooklyn 0 0 0 0 0 0—8 14 3. Grimes, Decatur and Hargreaves; Luque May and Hargrave.

The Olympic finals. If you want to know what is meant by all this Japanese exclusion stuff.

Leonard and Walker have finally been matched. Now all that remains to be done is to get them to fight.

America's athletes did not fare very well in the water sports in Paris. It may be presumed, however, that they did nobly in the joy water events.

COBB WANTS TO GET OUT OF LINE-UP

(By The Associated Press.)

BOSTON, July 17.—Ty Cobb wants to stop playing baseball as a regular thing this year. If he can get a man to take his place in the Detroit outfield, he said today, he will withdraw from the line-up and become a bench manager, although he added that he would still doubtless play from time to time. He said that twenty years of baseball were beginning to tell on him and that his health made withdrawal as a regular necessary.

Few Pitchers Repeat

Chief Bender

LAST MAJOR LEAGUE PITCHER TO LEAD HIS LEAGUE TWICE IN SUCCESSION

BY BILLY EVANS

Which is the more difficult, the winning of a major league batting championship or topping the pitchers?

Either one is a mighty difficult task, but the records prove that the pitching feat is the more difficult. Last season Adolf Luque of the Cincinnati club was the pitching sensation of the majors. He turned in 27 victories against only eight defeats. Some twirling.

This spring when I saw the Reds in action, prior to the opening of the season, I inquired as to Luque, expressing the opinion that the club's chances to win the pennant, to a certain extent, depended on his showing.

Imagine my surprise when one of the veteran stars replied:

Not banking on Luque.

"We are not banking as strongly on Luque as some of our other pitchers. Pete Donahue is more liable to be our pitching ace this year than Luque."

"It is a matter of baseball history," continued the player, "that star pitchers seldom have two big years in succession."

"Luque is a great pitcher, but he was no better last season than the year previous when he finished with a very ordinary record. The breaks favored him last year; this, plus his good pitching, made him a winner."

"A pitcher to be a winner must get the breaks. He seldom is favored with them two years in succession."

The other day, in looking over the pitching averages, I noticed that Luque was having his troubles winning consistently. It brought back to me what the veteran star had said about pitching.

If the figures don't lie, and usually they don't, leading a major league in pitching is a far more difficult task than topping the batting column. Since the inception of the American league in 1900 only one pitcher, famous Chief Bender of the Philadelphia Athletics, has been able to lead the pitchers in successive years, 1910-1911.

In the National League during the same time, only two pitchers have turned the trick. Ed Ruelbach, with the Chicago Cubs, showed the way to other twirlers in 1906, 1907 and 1908, while Jack Chesbro topped 'em in 1904 and 1905.

Cobb Has Monopoly.

On the other hand a certain few players during the same length of time have had a monopoly on the batting honors.

During 24 years of play only eight players have figured in the American League batting championship. Ty Cobb has 12 times finished out in front, nine of them in succession.

In the National League Hans Wagner and Rogers Hornsby have been the most frequent winners, Wagner leading with seven titles to his credit.

The figures prove that champion pitchers seldom repeat, yet the feat is not unusual among the batters.

ALASKAN COMMERCE CHAMBERS CELEBRATE AN EXCURSION

WASHINGTON, July 19.—The three and a half months of daylight in Alaska recently afforded an opportunity for the government railroad in the territory to hold the only "midnight" excursion of record. The occasion was the Seward and Anchorage chamber of commerce midnight sun celebration at Fairbanks. Special rates were authorized by the Interior Department, as a result of which 114

An entertaining feature of the celebration was the annual "nocturnal" baseball game between the Anchorage and Fairbanks baseball teams.

Wilson Weakens In 8th And Rally Gives Twins Game—No Hit Off Miller

WINSTON-SALEM, July 17.—Winston-Salem continued her winning streak by defeating Danville by the close margin of 2 to 1 today in one of the prettiest games seen here in some time. Lefty Wilson pitched superb ball for The Tobaccoconsists until the eighth inning when he weakened considerably and permitted two runs to score, tying and winning the game. He didn't allow but one Twin to reach first in the first five innings. Hairy managed to get by for three innings when double plays aided him in keeping the visitors from the plate. After one run was scored he was sent to the bench and Miller called to the mound. Miller was in superb form. He didn't allow the Leafs a single hit in the six innings he worked, and didn't allow a man to reach first.

Danville registered her only run in the fourth after several good chances to score had been cut down by fast double killings. Regan first up singled to centerfield. He went to second on a wild pitch and scored when Staley poked a safety into right. Hairy then threw three straight balls to McDonald and was yanked. Miller came in and forced McDonald to hit into a double play after Staley had singled.

Wilson won the game in the eighth. Inman opened with a single to center. Miller sacrificed. Lee doubled and Inman scored. Jackson shot a double over third and Lee counted for what proved to be the winning run. Waldron flied out to left but Wilson was yanked and Shoaf pitched to one man. Standaert who sent a long fly to left. Treffy backed against the fence to catch it.

Standaert made a nice one handed catch, initiating a double play. Waldron robbed Ernst of a hit. Eddie Regan made a circus catch by a sensational shoe string drive.

Umpire Lewis showed his wrath in the fourth and it was all uncalled for. It is said. He called an inside ball a strike on Waldron. Waldron said something about it and Lewis is alleged to have cursed him. Waldron reminded the umpire right away that

he resented being cursed and Lewis slapped a ten dollar fine on him. Mahoney said something about it and Lewis is alleged to have told him that if he didn't mind he would "slap him in the mouth." The fans were aroused considerably by the uncalled for actions of Umpire Lewis.

JINX HARRIS TURNS IN SECOND WIN IN 2 DAYS

DURHAM, N. C., July 17.—"Jinx" Harris turned in another victory for Greensboro this afternoon, defeating Durham by the score of 6 to 1. He pitched consistently steady ball throughout. No player got more than one hit and not more than one of these came after the ninth and the fourth when two hits counted two runs. Ledbetter twirled a good game until the ninth when he blew up and coupled with errors, four Patriots scored all of which came after the fourth when two hits counted two runs. Ledbetter twirled a good game until the ninth when he blew up and coupled with errors, four Patriots scored all of which came after the fourth when two hits counted two runs.

On the other hand a certain few players during the same length of time have had a monopoly on the batting honors.

During 24 years of play only eight players have figured in the American League batting championship. Ty Cobb has 12 times finished out in front, nine of them in succession.

In the National League Hans Wagner and Rogers Hornsby have been the most frequent winners, Wagner leading with seven titles to his credit.

The figures prove that champion pitchers seldom repeat, yet the feat is not unusual among the batters.

On the other hand a certain few players during the same length of time have had a monopoly on the batting honors.

Haines Twirls No Hit Game; Senators Split; Giants Lose

HELEN WILLS REACHES FINAL ROUND OF OLYMPIC SINGLES BY DEFEATING FRENCH PLAYER

(By The Associated Press.)
OLYMPIC STADIUM, COLUMBUS, France, July 18.—Miss Helen Wills, the American woman tennis champion, today reached the final round of the Olympic singles competition by defeating Madame A. G. Golding of France, 6-2, 6-1.

Miss Wills will meet the winner of the match between Miss Vlasto of France and Miss Kathleen McKane of Great Britain in the final.

Strong gusty winds forced Miss Wills to stroke cautiously and in consequence her play lacked the fire of which she is capable when forced to exert herself. The French woman offered her little resistance.

Vincent Richards, the only remaining American in the men's singles, reached the final round by defeating Baron De Morpurgo of Italy 6-3, 3-6, 6-1, 6-4. The American had things all his own way most of the time, being cautious on account of the high winds.

R. Norris Williams II. and Mrs. George Whitman, of the United States, reached the semi-final round of the Olympic mixed doubles competition by defeating Madame Fick and M. Mueller of Sweden, 3-6, 6-2.

Miss Vlasto of France defeated Miss Kathleen McKane, of Great Britain, who won the Wimbledon title from Miss Helen Wills of the United States. The score was 6-6, 7-5, 6-1.

Miss Vlasto will meet Miss Wills in the final.

Madame Golding won the first game at Love on her own service which was given a downward cutting twist of the racket and which took such an awkward bound that Miss Wills at first apparently found it puzzling. She soon got used to it, however, and after winning the second and third games went on confidently.

The French woman's back hand strokes were a fatal weakness to have with Miss Wills as her opponent for the American simply shot her own fast back hands diagonally across the court, making the French woman's battle almost a hopeless one. Point scores:

First set: Miss Wills 444, 404; 45-6. Madame Golding 422, 149; 22-2.

Second set: Miss Wills 545, 443; 4-6. Madame Golding 494; 025, 2-1.

Because of the fastness of the court and the unusual weather conditions neither Richards nor his Italian rival tried volleying attacks except at long intervals. Baron De Morpurgo played a capable, sterling game but although he was flashy at times he lacked the sound consistency of the American.

Richards won the first set easily. In the second the Italian, for some reason, made a fast hard clip, broke lead at 5-3 and then went out at 6-3 on his own service. After that Richards controlled the pace and won the match without difficulty.

But No Championship Is At Stake!

There is perpetual warfare in Robert O. Keim's backyard in Omaha. "Thick," Keim's dog and "Dempsey," a battling rooster, are going to it every day. But neither one ever really succeeds in licking the other. They go to it tooth, spur, claw and beak until they get tired. Then side by side they drink together out of the barnyard pan.

SEVEN WORLD RECORDS AND 12 OLYMPIC RECORDS RATIFIED TODAY BY ATHLETIC CONGRESS

(By The Associated Press.)
PARIS, July 18.—The congress of the International Amateur Athletic Federation today ratified seven world records and twelve Olympic records made during the recent track and field competition and eliminated four events from future Olympic programs. The events eliminated are the 3,000 metre team race and the ten thousand metre cross country.

William C. Prout, president of the A. A. U., was elected American member of the federation council, succeeding Frederick W. Rubien.

Four out of the seven new world records ratified were hung up by athletes from the United States. These were the marks made by Robert LeGendre, the former Georgetown star, in the broad jump in the pentathlon; Harold Osborn, Illinois A. C., in his decathlon victory; and by the American relay teams in the 400-

metre and 1,600-metre races.

The remaining world records are credited to Willie Ritola of Finland, for his new mark in the 10,000-metre run, to E. H. Liddell, of England, for his mark in the 400-metre event and to A. W. Winter of Australia, for his new record in the hop, step and jump.

These marks also stand as new Olympic records. In addition to the ratified world records, the congress established three Olympic marks for the distances of 1500, 3000 and 5000 metres. The marks made by Osborn in the running high jump and by Clarence Houser in the discus throw complete the list.

The curtailment of the Olympic program decided upon is likely to affect especially such nations as Finland which depend largely upon their distance runners. The three events of this class eliminated gave Finland 19 points out of the 165 she scored in the 1924 games.

For the Game's Sake

By LAWRENCE PERRY

(Copyright, 1924, by The Bee)
NEW YORK, July 18.—Returns of the final checking up of new football material at the University of Alabama show that practically two-thirds of the high school stars of the State will enter the University next September. It is a good sign when an institution holds the young men of its own section. Pittsburgh has always done this and so has West Virginia. So have a majority of the Middle Western and Far Western seats of learning.

Results have shown that native sons are plenty good enough for all practical gridiron purposes. Wallace Wade, the Alabama coach, is building carefully and with an eye to an enduring future. The Capstone eleven should be a leader this fall but in 1925 Alabamaans believe the Crimson tide will flood the South.

Mississippi A. and M. is another college whose football program beginning this season will bear watching. Two successive southern track and field championships have tasted good to the Starkville collegians and now under the guidance of Abell, the former Colgate star, there is the strong determination to do equally well in football. Wallace Wade, of course, predicts that A. and M. will be one of the ranking elegants of the South within a year.

The geographical distribution of the lawn tennis stars who will meet in the first of the season's big tennis tournaments at Seabright N. J., the last of this month shows that the Olympic tennis feature by no means claimed all of the world's stars. There will be Brian Norton of South Africa, Leoncio De La Barboia, of Mexico, Shimidzu and Kashi of Japan, Joao Alonso of Spain, Norman Brookes, Gerald Patterson and other Australians, and possibly members of the Chinese Davis Cup team.

Numbers of stars who kept away from Seabright because of the Olympic tennis, but their absence will be extraordinary, none the less.

Tennis enthusiasts will be keenly interested to see Miss Mary Blake and Miss Anna H. Fuller who are entered in the junior players' events. They are junior players from Boston and are credited with phenomenal ability.

WELL KNOWN VIRGINIANS WED IN ATLANTIC CITY

(By The Associated Press.)
BALTIMORE, July 17.—Charles H. Connelly, owner of the Hotel Belvedere, Baltimore, and Mrs. Mary Byrd Cobl of Virginia, were married tonight in Atlantic City.

The marriage license gave the gas of Mr. Connelly as 52 and that of Mrs. Byrd Cobl as 26 according to a dispatch from Atlantic City, to the Baltimore Sun.

The bride is a daughter of Wickham Byrd, of Clark county, Virginia, one of the family known as the famous James River Byrds.

In addition to owning the hotel in Baltimore, Mr. Connelly owns the Hotel Jefferson in Richmond. Virginia, one time he was a colonel in the Virginia national guard and also served on the staff of one of the governors of Virginia.

Alexander Lee Cobl, of Virginia, Mr. Connelly's first husband, was granted a divorce in Baltimore in January, 1922, on grounds of abandonment. The granting of this divorce followed the dismissal of a bill filed earlier by Mr. and Mrs. Cobl.

REPORT DENIED

(By The Associated Press.)
LONDON, July 17.—London headquarters of the United Railways of Havana today denied reports that Archibald Jack had relinquished his membership of the line in the Cuban capital. It was explained that Mr. Jack, who was shot during the recent strike in Havana had come to London for the benefit of the sea voyage and to obtain treatment for his wounds.

Grandstand Gaff

HE tallenders beat the leaders all around the Piedmont loop yesterday, the most surprising of which was Raleigh's victory over High Point. Heavy willow work gave the Caps the game after a successive string of defeats and of course those all come good pitching to hold Herndon's sluggers down. Incidentally, Danville, who had again crept above the .500 mark, slipped back again. Try as they may, the Leafs seem utterly unable to go much ahead of the won point, although they manage not to go beneath it to any appreciable extent.

Too Good to Keep It Up.
Lefty Wilson pitched a great game for seven innings but he weakened in the eighth, and it was in that chapter that the story was changed. For five innings he didn't allow but one twin to reach base. Then in the eighth, like a bolt from the sky, Ka-floole went Lefty, and a single, a suicide and a couple of two baggers came in rapid succession. Shoof came to the rescue, but too late then.

Miller's No-Hit "Game."
But the best pitching exhibition was put up by Miller, who didn't allow the Tobaccoists a smell, the pitcher. He didn't allow a single hit, nor did he walk a batsman. He relieved Haury in the fourth, with none out and after the Danville tally had been made.

Weak In the Pinches.
Staley, former Twin, seemed to be the only man to be able to hit any at all. He got half of the Tobaccoists' hits, two all told. Danville had several excellent opportunities to score while Haury was in the box, but three double plays cut them down. After inability to hit in the pinches was their weakness.

Stars Held in Reserve.
Danville has two star twirlers to

meet in the other two games. They are Wertz and Bernie Thompson, both hard to beat. Only four runs have been scored off Winston pitchers this week—four games. Winning ball games? Why, of course they are with this sort of pitching. It will probably be Wertz today and Thompson tomorrow and if the Leafs don't mind they will be two games below their .500 mark.

Whitman Visits Twins.
Rabbit Whitman, former Twin star, was in Winston yesterday, resting up from an injury. Whitman is now with the Newark Bears and going good. He was greeted on all sides yesterday.

Irby May Join Winston.
Red Irby, released by Greensboro, will probably wear a Twin uniform. Irby was in Winston yesterday, dicker with the Winston management. He is said to have received an offer and is to make his reply today. Irby, however, is said to have been asking too much for the impaired condition, as result of injuries, he is now in.

Dave Harris Sold to Braves.
Dave Harris, hard-hitting outfielder for the Patriots, has been sold to the Boston Braves to report at the end of the season. The purchase price was not revealed but it is understood a lump sum will be paid to the Patriots when he reports and another check to follow in event he makes good. He doesn't return to Greensboro next spring and the money returned.

Rookie Gets Many Thrills.
"Lefty" Wingard, rookie southpaw of the St. Louis Browns, is getting his share of thrills in his first year. He started by winning six straight games, then stopped, and suffered five consecutive defeats.

Nehf Leads Southpaws.
Art Nehf, of the New York Giants, after his explosion in the world series with the Yankees, was regarded by some of the critics as through. He has fooled them and is ranking southpaw of the National League.

Haines Pitches No Hit Game For Cards, First In Forty-Eight Years

(By The Associated Press.)
NEW YORK, July 18.—When Jesse Haines turned back the Boston Braves without a hit for 2 1/2 runs and 5 to 0, he not only carved a monument for himself in baseball's immortal hall of fame, but he boosted the Cardinals from last place in the National league into a tie with the Boston team for sixth place.

Haines feat, while not perfect, was outstanding enough to gain him an envious place in baseball's history. Not since 1785, the year the National League sprang into existence, has a pitcher thrown a no-hit-no-run game. In this instance George Washington Bradley, now a member of General Butler's Philadelphia force of police guardians, won 2 of the St. Louisians to a 2 to 0 victory over the Hartford, Conn., Nationals, allowing them neither hit nor run.

The Giants in the National league parade, lost a bit of ground yesterday when Pittsburgh walked away with a 4 to 3 verdict in 13 innings, Chicago gaining a full game by defeating Philadelphia 3 to 2. Cincinnati pulled the Brooklyn Dodgers out of third place by defeating them 10 to 8 in a slugfest match, the Pirates stepping into third place.

Washington, hanging tenaciously on the heel of the New York Yankees, for supremacy in the American league, lost a point in the percentage column by dividing a double header with St. Louis, the Browns shutting Stanley Harris' men out in the first game, 3 to 0, but losing the second 12 to 7. New York and Cleveland and Detroit and Boston were idle due to excessive moisture.

The White Sox humbled Connie Mack's Athletics again, 13 to 5. Young Hollis Hunsicker pitched his ninth consecutive victory.

The Sportsman

By WALTER CAMP

(Copyright, 1924, by The Bee)
NEW YORK, July 18.—More than one critic will be found who doubts the wisdom of such races as that desperate 10,000 meter cross-country at the Olympic games.

Half the trained athletes who started were unable to finish and some of them were in condition for the hospital.

True, the blazing heat was partly responsible but still, the question is whether or not this event is productive of more harm than good.

Human consideration displayed toward the Marathon runners in starting the long race much later in the afternoon should offer the suggestion to the Olympic committee that it is hardly the province of games of whatever sort to sun prostration.

What is the fascination of the Marathon? Record-breaking performances stirring finishes, running, jumping and weight-throwing victories all fade into insignificance in the eyes of the long race, much later in the afternoon should offer the suggestion to the Olympic committee that it is hardly the province of games of whatever sort to sun prostration.

What is the fascination of the Marathon? Record-breaking performances stirring finishes, running, jumping and weight-throwing victories all fade into insignificance in the eyes of the long race, much later in the afternoon should offer the suggestion to the Olympic committee that it is hardly the province of games of whatever sort to sun prostration.

And Finland, the country of Nurmi and Ritola, needed not the success of the forty-year-old unknown woodcutter, Stenroos, to gild her crown. But it was fitting that this greatest popular event should have gone to the country that had so excelled in all the distance runs.

Danville Golfers Play at Winston-Salem Tomorrow

The following players have been chosen to represent the Danville Golf Club in the series of the Tri-City Golf Tournaments to be held at Winston-Salem tomorrow afternoon at 2 o'clock:

J. H. Schofield, Jr., captain; W. L. Robinson, Dr. L. Crumpler, Alan McKinnon, Walter Brown, Stanley Cunningham, Walter Waddill, Julian Jordan Jr., Albert Patton, Barnett Lea, Albert Pritchett, O. L. Roach.

Substitutes: Henry Day, Eugene Noel, "Buster" Jordan.

—Miss Mary Lee Brown and Miss Vera Shannon spent yesterday in Lynchburg.

AMERICAN MAN AND WOMAN SWIMMERS ARE VICTORIOUS

(By The Associated Press.)
OLYMPIC SWIMMING POOL, LES TOURELLES, France, July 18.—The United States Olympic swimmer team won four out of the five final events contested today and took three second places and one third place, piling up a total of 52 Olympic points during the day for a total of 115 points or three times as many as Great Britain which now holds second place with 35 points.

OLYMPIC SWIMMING POOL, LES TOURELLES, France, July 18.—

The American woman broke the world's record for the distance, negotiating the 400 metres in 4 minutes 54.4 seconds.

Johnny Weissmuller, Illinois A. C., today won the final of the Olympic 400-metre free style swim with Andrew Charlton of Australia supposed to be his strongest rival, third, and Arne Borg of Sweden, second.

Weissmuller's time of 5 minutes 41.5 seconds broke the Olympic record but was far behind Arne Borg's world mark of 4 minutes 49 seconds which, however, has not yet been officially ratified.

400-metre relay. Women—final: United States, first; Great Britain, second; Sweden, third; Denmark, fourth; France, fifth; Holland, sixth. Time, four minutes 53.4 seconds.

400-metre swim. Free style. Men—final: Johnny Weissmuller, Illinois A. C., first; Arne Borg, Sweden, second; Andrew Charlton, Australia, third; Arne Borg, Sweden, fourth; Hatfield, Great Britain, fifth. Time, 5 minutes 41.5 seconds, breaking the Olympic record.

lay team today qualified for the semi-final by finishing first in the first heat. The team includes Ralph Brewer, Northwestern University, Harry Giancy, Cincinnati Y. M. C. A., Richard Howell, Northwestern University, and Wallace O'Connor, Venice, France.

Miss Morton of Great Britain won the final of the 40-metre women's breast stroke event with Miss Agnes Geraghty of the W. S. A. of New York, second.

Miss Elizabeth Becker, of the Ambassador Swimming Club of Atlantic City, N. J., won the final of the women's spring board final diving event. Miss Aileen Riggan, women's swimming association of New York, was second and Miss Carroll Fletcher, of Pasadena, California, was third in the final of the spring board final diving event.

100-metre back stroke final: Warren, Hawaii, first; Paul Wyatt, Uniontown, Penna., second; Bartha, Hungary, third; Ritz, Belgium, fourth; Rawlinson, Great Britain, fifth. Time 1 minute 13.1 seconds, a new Olympic record.

New York, had to be content with second place in the 200 metre breast stroke but she swam a magnificent race. Paul Wyatt, of Uniontown, Pa., was second in the 100 metres back stroke, while Miss Aileen Riggan, of New York, and Miss Carol Fletcher, of Pasadena, California, took second and third places in the springboard final diving.

Springboard fancy diving women final: Miss Elizabeth Becker, Atlantic City, N. J., first, with 8 points; Miss Aileen Riggan, New York, second, with 12 points; Miss Carol Fletcher, Pasadena, Calif., third, with 16 points; Miss Oliver, Sweden, fourth, with 20 points; Johnson, Sweden, fifth, with 21 points; Barnett, Australia, sixth, with 25 points.

The last Congress defeated every effort to weaken the national enforcement code and enacted even more stringent law enforcement.

"Both the Democratic and Republican conventions endorsed the bill to put prohibition agents under civil service which passed the House by an overwhelming majority.

"The act forces are starting their attacks on State enforcement codes. They will fail if the dry forces are awake.

"The Congressional and State legislative districts are the forums for determining whether effective enforcement laws shall stand or fall.

"Every friend of law enforcement must register and vote. Future at this point means non-enforceable laws and increased lawlessness. We are fighting the greatest known evil of modern times and winning the greatest moral victory ever achieved by a self-governing people.

"The best method of the world is watching us. We are encompassed with a cloud of witnesses. If we fail, then the world will abandon hope for prohibition. We are equipped for this fight as is no other nation. We have a latent strategic advantage. Our foe is waging only a guerilla warfare. We hold every entrenched position. There is no failure except by surrender. We are victorious. We are opening the fight against the liquor forces of their nations. Where we lead, they follow. We can lead the world to an age where drunkenness is as strange as horse slavery. If we only have faith and courage we will lead the world into the deepest bondage to the brewers and the lords of drink. If we winch. The United States is the hope of the age. We must, we can, we will win."

The saying, "there's a crowd," doubtless originated in a couple full of tablecloths, picnic lunch and thermos

COOLIDGE UP TO PAR

WASHINGTON, July 17.—President Coolidge after nearly a year in the White House is physically fit. The president today accompanied his father, John Coolidge, to Walter Reed hospital to allow the latter to undergo a physical examination. While there, the president himself decided to be examined, as he is from time to time by the White House physicians, and the finding of the army doctors was that he is in "good physical shape."

The elder Coolidge also passed the examination in good shape.

KANSAS CITY WHEAT PRICES
KANSAS CITY, July 17.—Best wheat received on the Kansas City board of trade today sold for \$1.46 a bushel and sales ranged from that price down to \$1.42 for the poorest grades. Car lots of wheat sold 2 to 5 cents higher than yesterday with a broad demand for the offerings. September wheat was up two cents to \$1.19 3-8 in Kansas City.

AFTER HIS JOB

Tom Robinson, 51, tests bathing suits at Newport Beach, Calif., by measuring the distance from knee to skirt with his hands. The law says that not more than 10 inches must intervene. Clubwomen have been shocked by his method, and are petitioning for his recall.

NO DEFINITE TRACE OF BOY MURDERER

(By The Associated Press.)
NEW YORK, July 17.—Police admitted tonight they still were without a reliable clue to the identity of the man who last Monday hid the mutilated body of seven-year-old Francis McDonnell in a thicket near Port Richmond, Staten Island.

A roundup of suspected persons had brought three men into custody but without important result. A fourth man—a hermit reported to occupy a hut near the scene of the crime—was being hunted on the strength of a story told by Jennie Carlson, 17, that he had pursued her through the woods the day of the murder.

John Clyde Patterson, 42, and Jacob Gottlieb, 18, both orderlies at Seaview Hospital, Staten Island, were in jail in default of \$10,000 bail each, charged with statutory offenses.

They acknowledged membership in the "rattle snake nest" gang whose rendezvous was in the cluster of woods which marked the scene of the boy's death.

Jacob Herman, 50-year-old farm hand, who had escaped from the Morris Plains, N. J., insane hospital and was captured yesterday at Kearney, N. J., has been virtually freed from suspicion in the McDonnell murder. Authorities were convinced that his story of having seen the boy's body in the Staten Island thicket and of having touched it was the product of hallucinations.

VICTIM HOLDS SNAKE IN DEATH CLUTCH

(By The Associated Press.)
ANDERSON, S. C., July 17.—The finding of the body of an unidentified white woman, with a large rattle-snake clutched in her right hand and the curved fangs of the reptile still fastened in her neck, is reported by the Seneca, S. C., Farm and Factory.

The woman's body was found near the North Carolina and South Carolina boundary line by a party of tourists, it is stated.

The tourists are said to have met two small children in the road crying and were told that their mother had gone over a hill to pick huckleberries and had not returned. On investigation, the tourists made the gruesome find, the snake's body gripped in the woman's hand, and its fangs still fastened in her neck, according to the story.

GOV'T. OIL COUNSEL IS MAKING PROGRESS

LONDON, July 17.—The recent government's special oil counsel, Allee Pomerene and Owen J. Roberts, announced today that they soon would ask the federal court in Los Angeles to expedite the hearing in the government's proceedings against the Pan-American Petroleum Company, involving cancellation of the lease held by that corporation to the Elk Hills naval oil reserve in California.

The member of the counsel presented an informal informal report today to President Coolidge and announced that former Senator Pomerene would leave immediately for Los Angeles to ask for hearing on the Elk Hills case early in September.

The Teapot Dome lease cancellation hearings have been set for October and the attorneys said they desired to conclude these civil cases before taking up the criminal proceedings involved in the recent indictment of E. L. Doheny, Albert B. Fall, Harry F. Sinclair and E. L. Doheny, Jr.

Nice thing about hot weather is a man can't blame it on his wife.

CHINESE DOMESTIC STRIKE MAY SPREAD

(By The Associated Press.)
CANTON, July 17.—Spread of the strike of Chinese domestics and employees of foreign firms to the suburbs of Canton is threatened. So far the strike has been confined to Shamen, the island foreign quarter. Restrictions placed on the entry and departure of Chinese to and from Shamen caused the strike.

The guilds involved in the strike plan to call out the domestic servants now in the employ of foreign residents in the Tungshan and Pakhotung districts within three days unless the Chinese employed on Shamen are permitted to enter and leave Shamen freely.

The Chinese police in the French concession, after striking Tuesday night and being induced to return to their duties again quit today and were ordered off Shamen Island. There has been no violence as a result of the strike but business is at a standstill.

As a light summer pastime, we suggest lying on the floor counting the holes in the lace curtains.

Milady's Money

Women are quite as competent to carry money as most men, but, like most men, they are sometimes in a quandary about how to safeguard their funds while traveling.

This bank offers a service which particularly appeals to Milady inasmuch as it relieves her of all worry and uncertainty respecting the value of her money in foreign lands as well as the safety of the money whether she be traveling abroad or at home.

That service is expressed in American Express Travelers Cheques.

The neatness and compactness of the little leather wallets in which they are issued, the ease with which their owners establish their identity through the use of this form of protective paper, and the sense of security and well being that their possession creates are attributes of American Express Travelers Cheques which enhance their value in the estimation of women travelers.

The sale of Travelers Cheques is only one of the many important services this bank offers to women.

MORNING COTTON LETTER

(Courtesy Thomson and McKinnon) NEW YORK, July 18.—Cotton weak. It was cloudy in central and eastern sections of belt last night with rain in Memphis and Montgomery. Fair in Texas. Futures—Cottons Georgia, fair; Alabama, Mississippi, Louisiana, showery; Arkansas, and Oklahoma, partly cloudy; East Texas, fair; West Texas, showery in extreme western portion.

5c-BIJOU-15c

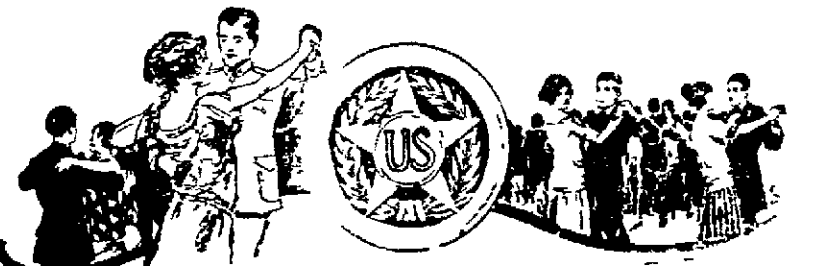

Every Saturday Starting July 19th

Trading more active in cotton cloth in North Street about 50,000 pieces print cloths sold and good sales in other lines. Texas, Arkansas and Oklahoma in Journal of Commerce (crop column) generally favorable and there is not much complaint from the east. The market would seem to be discounting anticipated rather than real damage from lack of rain in Texas. Any setback, however, will probably be temporary while the outflow remains dry, although the three cent advance from the low must have eliminated the short interest to a large extent.

NEW ORLEANS COTTON (By The Associated Press) NEW ORLEANS, July 18.—The cotton market had a week opening due to much lower Liverpool than due and to some showers in western Oklahoma creating hopes of the breaking of the western drought. First trades were 28 to 37 points down and the market continued to ease off, partly during and after the opening, still until October traded down to 25 and December to 24 1/2. In the 20 and 25 points respectively down from yesterday's close. July dropped 1/2 cent to 25 1/2, December 1/2 cent to 24 1/2, and March 1/2 cent to 25 1/2. The market showed reluctance and a disinclination to wait showing of the market.

MAN PREPARING FOR TRIP OVER NIAGARA FALLS

Bobby Leach, Aged Daredevil, Confident of Success in Undertaking

By LEROY E. FESS (Copyright, 1924, by The Bee) NIAGARA FALLS, N. Y., July 18.—Society guarded in some ramshackle bath or other unsuspected place near here is the immense rubber ball that is to bounce 65 feet over Bobby Leach of this city to added fame and fortune or to death when he attempts his second trip over Niagara Falls, which is scheduled for July 26 or August 3. Though several have tried and failed, Leach is one of the only two persons who have ever gone over the falls and have lived to tell the tale. The other was Miss Anna E. Taylor, who accomplished the feat in a steel barrel in 1902. She died a few years ago.

Aw, I can do it, scoffs Leach on the eve of his second perilous undertaking. I made it the last time in a steel tube. It's a lead pipe with a hole in it now in my rubber football. She'll ride the big plunges like a bubble and I won't even get a jail.

The rubber ball on which Bobby bets his life against \$50,000 for insurance picture rights is shaped exactly like a rubber football. It measures seven feet four inches from end to end and has a width of four feet at the center. It is made of the stuff that balloons are made of, according to Bobby, and cost him \$3,400. Its weight sans passenger is 284 pounds.

In the interior is a compact oblong space just large enough to accommodate a man of Mr. Leach's dimensions. It is here that Bobby will repose on a hammock suspended at each end by swivel fixtures so that old mother gravity will keep him rightside up no matter which way the ball turns in its mad flight. Air compartment are at each end of the ball. Just like its smaller brother and sister footballs the opening is laced up from the outside. Everything's all set, gleefully, confident Bobby to the correspondent today. But help me, I've had a devil of a time. Now there's the authorities. They'll try to stop me. But I've outsmarted them every time before. I'll do it again. They cut airplane company where I engaged a pilot to tote me out and drop me into the rapids above the Horse Shoe Falls. I don't think they were being asked to be a party to a murder plot. I'll see them in a court of law. Now here's the way it's going to work. At the head end of the ball is a big ring to which it will be attached to the bottom of the airplane by a rope. A cutter operated from the plane will cut the rope and the ball will fall at the right place. I'll tell them to drop me in the rapids near the Toronto Power House. Then for the ride. There'll be enough air inside the ball to keep me alive for an hour. But if I am not picked up below the falls within twelve minutes I'll never be.

There is another obstacle besides the duly appointed authorities that stand in the way of Bobby Leach. That is his family. The old man and the little girl as he calls them. "He won't have any home any more," threatens Mrs. Bobby. "If he hadn't already done it once I wouldn't say anything, but now he's going to do something he hasn't done and let him do that."

The little girl is Bobby's fifteen-year-old daughter, Pearl. Her beauty is one of those rare castles upon a hill. Tall and stately for her age, she dresses like a grown-up lady. A wealth of jet black curls that are as famous in Niagara Falls as Mary Pickford's are in the movies hang down over her shoulders.

Bobby Leach is noted for one other thing besides being the only man in the world who has traveled from Lake Erie to Lake Ontario via the Niagara River. Though he is in perfect health despite his 65 years, no life insurance company can be found that will gamble a policy on him. They all know his habits too well.

Money you know, that long green stuff that's why I've been over the falls the first time and that's why I'm going again, says Bobby.

"And did you cash in at the box office the first time?" asked one.

"Did I?" retorted Bobby. "He put both thumbs under his suspension and swayed back and forth on his heels. Finally he said: 'Well now, that first time was 13 years ago and you don't see me working yet, do you?'"

Bobby Leach made his first successful trip over the falls on July 25, 1911. Though he escaped with his life, he suffered serious punishment. His jaw was broken and both knees crushed. He was in the hospital for twenty-three weeks following the adventure.

The last man who attempted to ride the falls was Charles Stephens, an Englishman. He went over in a wooden barrel on August 1, 1920. Both barrel and occupant were dashed to pieces on the rocks. "I warned the man he'd never get away with it," said Bobby today. "But now take my rubber ball there's absolutely no danger at all."

Beside going over the falls on one previous occasion Bobby has these other daredevil stunts to his credit: A parachute descent from a balloon at an altitude of 12,000 feet, or over two miles a dive from the steel arch bridge into the river below the falls, a distance of 208 feet, the highest dive in the world, and a short "rough the rapids" he being the only man to do this and come out alive.

There is only one thing I haven't done, commented this aged daredevil. "I haven't come up the falls yet."
